

# Eat better Be happier Live longer

FLAX & KALE PASSAGE is a Healthy Flexitarian restaurant. All the dishes are designed not only to maximize the organoleptical pleasure, but also considering their nutritional value. 80% of our offer is *plant-based* and the remaining 20% are recipes that contain oily fish. We have traveled the whole world in search of inspiration and later created a menu which can be described in one word: INNOVATION.

*Welcome to the fascinating world of Tasty + Healthy + Sustainable food!*

## RAW FOOD

The enzymes and vitamins are sensitive to temperatures above 48°C, dying above 54°C. That's why all the dishes marked with **RF** are raw or have been dehydrated at a temperature below 48°C, in order to maintain all their nutritional properties intact.

## PLANT-BASED

All the dishes marked with **PB** are elaborated using only veggie-based ingredients. Plants, vegetables, fruits, nuts and seeds, in their natural state, have the largest amount of vitamins, nutrients and enzymes in nature.

## GLUTEN-FREE

All Flax & Kale dishes are gluten-free (**GF**). We have the certificate "Restauració Sense Gluten" given by Celiacs Association from Catalunya, which guarantees that the whole menu is safe for people with celiac disease.

## OILY FISH

Dishes marked with **OF** contain oily fish. Those fish contain big amounts of omega-3 essential fatty acids and its nutritional benefits have been widely proved. Our Alaskan wild salmon comes from sustainable fishing, which helps to keep healthy our oceans' ecosystems.

**FLAX & KALE**

If you're allergic or intolerant to any kind of food, please, notify us immediately.  
Check the full allergen information at the end of the menu.

# KOMBUCHA LAB

SPARKLING | FERMENTED PROBIOTIC | NATURALLY ENERGIZING

Kombucha is a beverage which is fermented by a cultive of organisms with many health benefits.

Tea and sugar are the base of kombucha because they contain a number of nutrients and compounds that feed the cultive (soby), including nitrogen and tea. SCOBY is the acronym for "symbiotic culture of bacteria and yeasts" also known as "mother".

Among its benefits: helps to reinforce the immune system, balance the intestinal flora, revitalize the body and improve cardiovascular health.
